EXPERIENCE

Software Engineer Level 1 | Grootan Technologies | Chennai **May 2024 – Present**

- Engineered secure authentication systems for 3 major banking clients in Europe with 1M+ users.
- Led development of authentication flows for IBM, implementing 20+ authenticators and over 10+ authentication flows including QR and notification-based flows.
- Migrated enterprise application from Java 11 to Java 17, addressing deprecated APIs, module compatibility, and build pipeline updates.
- Actively participated in architectural planning meetings, contributing to 4 major security design decisions.

Junior Software Engineer (Intern) | Grootan Technologies | Chennai **Jun 2023 – May 2024**

- Involved in Keycloak version migration team (19 to 23) for product, ensuring zero downtime.

PROJECTS

IBM PKV - Insurance Provider

- Designed and implemented secure key management using Hardware Security Modules (HSMs) to protect cryptographic keys from extraction or misuse.
- Performed data validation and cleanup scripts for production and pre-production environments.
- Implemented notification triggers based on authentication events, user actions, and insurance workflow status.
- Integrated external video identification (Video-Ident) providers for secure remote user identity verification.

IBB - Istanbul Senin

- Worked closely with product, QA, and DevOps teams to deliver secure and scalable features.
- Actively debugged and resolved production issues related to authentication, database queries, and user access.
- Took ownership of end-to-end features, from requirement understanding to deployment and post-release support.

CityApp - Nibelungenstadt Worms

- Designed and implemented a centralized consent management system to capture, store, and validate user consents in compliance with GDPR and municipal data protection policies.
- Integrated Keycloak with backend services using OAuth 2.0 / OpenID Connect, ensuring secure token-based communication.

TECHNICAL SKILLS

- **Languages:** Java, JPA, JDBC, Java Script
- **Frameworks:** Spring Boot, ReactJs
- **Database:** Postgres SQL, MySQL
- **Tools:** Git, Docker, Keycloak

ACHIEVEMENTS

BIT HACKATHON – Finalist
Finalist in a highly competitive Hackathon conducted by BIT, for innovative problem-solving

EDUCATION

Bannari Amman Institute of Technology **2020-2024**
Bachelor of Engineering in Information Science and Engineering | CGPA: 8.3 Sathyamangalam, India
